

Project Update

All work sites are operational
PLEASE DRIVE WITH CAUTION

KM	Activity along the Lillooet River FSR
KM 37.5	Check Point Booth is in place 24 hr/day.
KM 38.5	Tunnelling at the Boulder Creek HEF. Blasting will occur daily.
KM 39	Boulder Intake Access site is open. Active logging also taking place in the area so please drive with caution on this road.
KM 39.7	Drive cautiously in this area – especially KM 39.7 to Km 41.2 as this is a narrow section of road (one-way traffic at a time).
KM 41.2	Upper Lillooet River HEF Powerhouse site is open.
KM 41.8	Overflow parking for Lillooet River Trail/Hot Springs.
KM 42	Main parking for Lillooet River Trail/Hot Springs. Overflow parking is available at KM 41.8. Please use parking that is provided and do not park on the FSR. Trail access is located up the road from the main parking area. Use caution when walking on the road.
KM 44	Upper Lillooet River HEF Downstream Tunnel Portal site open. Blasting will occur daily.
KM 47-49	Upper Lillooet River HEF Upstream Tunnel Portal site open. The site is very busy with limited parking by the Keyhole Bridge.

Road Name	Activities associated with Transmission Line (South side)
Ryan South Main	Road upgrades and bridge installation occurring. Ground preparation works for pole installation.
Rutherford Creek FSR	Helicopter staging for transmission line layout crews.

General updates on other industrial users

- Road grading on the Lillooet River FSR ongoing.
- Active hauling (4-6 loads per day) from KM 36 for the next month.
- Active logging from KM 39 with hauling to begin this month.
- Active logging in the Ryan South area with hauling to begin later this month.

Watch for wildlife on road

Please be advised that these updates are issued on a weekly basis.
